

Southfield Public Schools

Request for Proposal

Landscaping and Snow/Ice Removal Services

Bid Addendum II

March 16, 2020

I. Due to the COVID-19 school district closure the due date for this bid has been rescheduled to **2:00 p.m. Tuesday, May 5, 2020.**

II. Questions from vendors:

a. Question about Stevenson there is a school next to it. Is the Glen Schoenhals school a part of mowing as well?

Young Israel of Southfield is the facility next to Stevenson. It is a synagogue and not part of the Southfield Public Schools or this scope of work. Schoenhals is located next to Thompson. Schoenhals is not part of the Southfield Public Schools or scope of work for this RFP.

b. In regards to maintenance at closed buildings does the district require service to include all maintenance items or just the mowing service? In the RFP it says lawn only and want clarification as the cost difference is significant.

The closed buildings require the lawn service as detailed in the specifications. The designation of "lawn only" on the official bid form is used to indicate that these buildings do not require snow removal service.
